FOREWORD

Welcome to the Boone Career and Technical Center. BCTC is a cooperative effort of many people: instructors, industry partners and school administrators.

The main campus of Boone Career and Technical Center is a 45,000 square ft, block one-story building comprised of six offices for administrative and support staff, 16 classrooms with industry-specific lab facilities. The building contains a conference room and 6 public restroom facilities. It is located approximately two miles from US 119, which connects Boone County to Lincoln and Logan counties.

The BCTC Truck Driving Academy is located in a one-story brick building located 13 miles south of the main campus on US-119. The building houses an office, two classrooms, a conference room, restroom facilities and storage rooms. The facility sits on approximately ten acres of land, providing sufficient acreage to allow for truck driving instruction to take place.

Our staff members possess a high degree of skill area competency and are committed to working with students in the development of competent skills. High School programs offered at the school include: Adventure and Tourism, Automotive Technology, Building Maintenance and Operations, Drafting, Electrical Technology, Health Science, Pre-Cosmetology, Prostart, Power Sports Technology and Welding.

This handbook has been developed and approved by the Boone County Board of Education to serve as a guide. We hope it will answer many questions and help us work together to achieve your goals.

MISSION STATEMENT

Boone Career and Technical Center enriches lives locally, regionally, and globally by providing occupational education and training for lifelong learning and professional success.
